

Federal Insights & Advocacy

Anticipate. Advance. Achieve.

Leavitt Partners helps organizations thrive at the intersection of health care and the federal government.

We bring deep, bipartisan experience across policy, regulation, stakeholders, and health care sectors. We help health care leaders turn policy complexity into action.

For more than 20 years, our team members have helped shape, implement, and interpret significant federal health care laws and regulations.

Federal insight translated into tailored policy strategy and practical action

ANTICIPATE →

Timely intelligence on Congress, federal agencies, elections, and policy trends

ADVANCE →

Policy positions, legislative and regulatory proposals, and advocacy strategies

ACHIEVE →

Disciplined execution tied to mission, access, innovation, competitiveness, and sustainability

WHY LEAVITT PARTNERS

↔ **Bipartisan reach.**

Credibility across the aisle, election cycles, leadership changes, and agency transitions.

🏆 **Landmark policy work.**

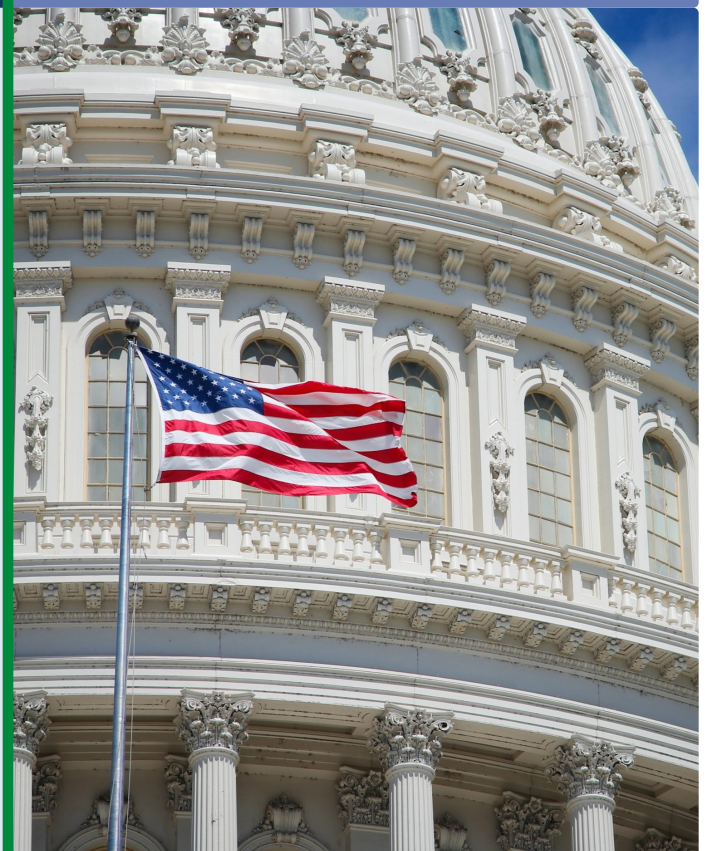

Experience shaping Medicare Modernization Act, ACA, MACRA, 21st Century Cures, COVID-19 relief, IRA, appropriations, and more.

🏛️ **Inside-government perspective.**

Former Congressional & HHS staff and political appointees who understand how policy is designed, advanced, and implemented.

⚙️ **Comprehensive government affairs**

services. Policy development, lobbying, coalition building, regulatory support, and technical expertise.

HOW WE HELP

From uncertainty to strategic action →

We help clients understand what is coming, shape what happens next, and execute with focus when policy decisions affect strategy, operations, markets, and growth.

Anticipate →

- Synthesize timely, actionable intelligence on federal policy, politics, agencies, and elections
- Identify risks and opportunities before decisions are locked in
- Shape informed regulatory, product, investment, and market decisions

Advance →

- Define objectives and assess the policy and political landscape
- Develop credible policy positions, proposals, and advocacy plans
- Build support through credible engagement and stakeholder alignment

Achieve →

- Prioritize opportunities with the greatest policy and business impact
- Engage the right regulators, lawmakers, and stakeholders to advance priorities
- Sustain momentum until strategy translates into measurable positive outcomes

NAVIGATING FEDERAL POLICY

We connect policy, technical, and regulatory expertise with government affairs strategy—focusing attention where it matters most.

- **Congress.** Legislation, committees, hearings, leadership, lobbying, Hill days, and briefings
- **Federal agencies.** HHS, CMS, FDA, etc. working on regulations, public comments, technical meetings, and implementation
- **Stakeholder ecosystem.** Coalitions, industry voices, patient and provider perspectives, and national discussions

WHO WE SERVE

Across the health care ecosystem →

We understand how federal policy affects business models, care delivery, innovation, access, reimbursement, and operational risk—because we work across the system.

- Digital health, health technology, life sciences, biopharma, diagnostics, and medtech
- Employers, purchasers, payers, health plans, medical providers, hospitals and health systems
- Foundations, patient groups, trade associations, coalitions, investors, startups, and community-based organizations
